

Forte

The Forte 300 umbrella combines technical intelligence and top-quality materials with neat design and elegance. Constructed for the outdoors- the Olefin fabric shade is kept uniquely taut by a durable powder-coated aluminium frame in a Dune and charcoal colourway, perfect to compliment a range of outdoor schemes. As with all Jardinico umbrellas, they open with a simple twist of the hand using the crank handle and a seamless slider to open, close and tilt. At nearly 3m square the Forte 300 umbrella offers a great deal of shade and, depending on the position of the sun, you can turn and adjust the height for all day shade.
