

# Caractere 301

The Caractere range of umbrellas combine technical intelligence and top-quality materials with neat design and elegance. Constructed for the outdoors- the Sunbrella fabric shade is kept uniquely taut by a durable powder-coated aluminium frame . As with all Jardinico umbrellas, they open with a simple twist of the hand using the crank handle and a seamless slider to open, close and tilt. The Caractere range also comes with a max wind speed rating of 58km/hour so you can rest assured that you have an umbrella which will stand up to whatever summer throws at it. At 3m square the Caractere 301 umbrella offers a great deal of shade and, depending on the position of the sun, you can turn, tilt and adjust the height for all day shade.
