### DESCRIPTION

The King Koil Emerge Plush Bed is designed to deliver a softer, more indulgent sleep experience, combining breathable comfort with responsive support. With a plush feel, it offers enhanced surface cushioning to gently cradle the body while still providing the stability needed for a settled and supported night's sleep.

The Emerge Plush features a carefully balanced blend of natural and advanced materials that work together to regulate temperature and relieve pressure. A wool and Ultraloft fibre blend creates cloud-like cushioning tailored to the body, while the Reflex Plus Support System responds to individual size and shape for a more personalised sleep experience. Quilting and edge support technologies enhance airflow, durability and comfort across the entire sleep surface, helping you relax from dusk till dawn.
