

Document Information	Version: Flyme Auto S 2.1.3 Applicable Model(s): MY26 Starray EM-i Complete, MY26 Starray EM-i Inspire, Update Contents: General Update Approximate Size: 5GB Approximate Download Time: 30 mins Approximate Installation Time: 30 mins Release Date: 04/03/26
----------------------	--

Dear Geely Customers,

An Over-the-Air (OTA) update will be available from Wednesday, 4th March.

This applies to all MY26 Geely Starray EM-i Complete and MY26 Geely Starray EM-i Inspire models. This update will improve your experience with your Geely product, enabling newly added features.

Summary

1. **Android Auto** will be available in both wired and wireless formats; air conditioning controls will conveniently remain visible to ensure you do not have to toggle between screens to adjust the temperature.
2. A **Drive Setup** function will allow you to store your preferred driving settings:
 - Drive Mode (PURE / HYBRID / POWER)
 - Energy Regeneration Level (Low / Medium / High / Auto)
 - Lane Keeping Assist (ON / OFF)
 - Emergency Lane Keeping Assistance (ON / OFF)
 - Driver Fatigue Detection (ON / OFF)
 - Speed Limit Alert (OFF / Blinking Icon / Blinking Icon & Sound Alert)
 - Battery Hold Settings (OFF / Smart Battery Hold / Forced Battery Hold)

You can also set the Steering Wheel Shortcut button or the Swipe Down menu to conveniently activate your saved settings on every drive. Only one profile can be set up as it is not linked to the User Profile or the Memory Settings.

3. The **Intelligent Cruise Control** logic has been enhanced allowing for smoother deceleration on curves.
4. Voice Control is now available for **Chinese** allowing a wider breadth of customers to get a comprehensive experience by interacting with their vehicle in their preferred language.

We look forward to you enjoying these upgrades.
