

Heavy 2 Axle Tipping Trailer (NZ Built)

A tough, reliable tipping trailer built for the demands of commercial and agricultural operations. The Heavy 2 Axle Tipping Trailer is New Zealand built, designed and constructed to withstand the conditions and requirements of everyday working environments across the country.

With a 4.2m tipping body, quality running gear, and a practical tipping design, this is a dependable, work-ready solution for operators who need a trailer that performs consistently under load and holds up over time.

Available with a range of configuration options to suit your specific operational requirement.
