

# Traffic Management Builds:

TruGroup is a traffic management business. We operate sites, we manage fleets, and we understand the daily demands placed on traffic management vehicles because we place those same demands on our own. When the equipment available in the market didn't meet our operational standards, we built better. That's how this range started, and that hands on operational reality still drives every design decision we make.

Whether you're an established traffic management operator refreshing your fleet, or new to traffic management and working out what you need, these trucks were designed from the inside out.

## All our builds include:

Overhead beacon

---

Front & rear LED flashers

---

Rear deck work lights

---

Reverse/deck camera

---

Handbrake alarm wired to horn

---

Reverse alarm

---

Sandblast decks, anti-rust prime, and topcoat specification JW 180123A to match cab

---

Grip deck

**We work across all major cab and chassis platforms and carry strong procurement relationships with leading truck brands.**

# Whiteline Series

---

On state highways and high speed corridors, traffic management operations are subject to the most demanding safety and compliance requirements in the industry. TL2 and TL3 rated vehicles, tested and approved to MASH standards, are a legal requirement for these environments, providing a certified level of impact protection for workers and motorists alike.

Sitting on a heavy duty platform and engineered for the rigours of level 2 and 3 state highway operations, the Whiteline steps up where the rest of the range cannot. A European arrowboard and TL2 or TL3 MASH approved crash pad make this the most capable and compliant TM build in the TruGroup range, purpose built for operators working in environments where performance and certification are non negotiable.

Available across 5120mm and 5500mm wheelbase configurations to suit your operational requirement.

## Features

European arrowboard

---

MASH TL2 or TL3 crashpad

---

Certified fall arrest

---

Galvanised adjustable signs stand holder

---

Interchangeable well sections (Sandbag to step)

## TMA Options

Scorpion TL2 or TL3

---

LIKE TL3

---

ARMIDILLO – TL3
